

Annual Report 2016
Home Missions Board –

What location(s) have you or your church or Area considered supporting and/or planting a new church?

The Home Missions Board provides local churches with assistance in supporting and/or planting a church and provides assessment and training for Church Planters (see Church Planting Strategic System brochure). Would you allow us to assist you in beginning to explore or plan for supporting church planting?

- Yes
- Not at this time
- We need more information.

In keeping with the vision of "I Have A Dream" that surfaced from our 2014 Ministry Conference, we are focusing this year on testimonies from new disciples. What part of the dream resonates with your church?

What steps are you taking toward that dream?

Our dream of a church planting movement among EFC-MAYM begins with disciples making disciples from non-disciples. We would love to hear stories about the people in your church engaging with non-disciples. These personal stories will be the heart of our 2016 Annual Report. Would you be willing to share a story?

We expect these reports would be short because of time restraints unless, of course, the Holy Spirit deems otherwise.

Please let us know how God is working to expand His Kingdom in your community. Thanks for your help.
